WHO WE ARE
Founded in Milan (Italy) in 1980, CSIL - Centre for Industrial Studies is an independent Research and Consulting company specialized in applied economic research, evaluation of public investment projects, business intelligence, support to development programs and policies, market analysis and SMEs economics. Since its origin, CSIL has been established as a center of excellence concentrating on the diagnosis and design of company and sector strategies, and the analysis of factors of competitiveness at Local, and global level.

WHAT WE DO
CSIL professional background encompasses a wide range of experiences at different levels: 26 partners in activity, 8 associated experts, an overall network of 50 experts. The research activities at CSIL are structured around two distinct but interrelated business areas:
- Industry Studies and Market Research
- Development and Evaluation Studies
Consistency and complementarity within the research objectives and methodological tools are ensured by a common statistical office and a Scientific Committee.

OUR VISION
“Careful analysis, global perspective, feasible projects”. CSIL boasts an empirical and experimental perspective, based on the direct and detailed observation of evidence, attentive to differences and similarities, with a concrete and versatile approach. CSIL research and consulting activities are driven by the search of hard facts that tell stories that are relevant to our clients. CSIL experts pursue their work with intellectual integrity and a genuine passion for understanding growth and innovation processes.

Approximately 40% of CSIL’s market research is carried out “on demand”. Custom research meets the specific needs of the Client and the results are for its own sole use. Customized research is based on a multidisciplinary approach, using both desk and field analyses. CSIL has partners and correspondents in around 20 countries including Brazil, China, India, Russia, USA and all over Europe. Costs for customized projects usually vary between 3,000 Eur and 30,000 Eur. Detailed prices are provided for each request. Delivery time are usually 2-8 weeks.

MARKET BRIEFS
Issues we address: Bird-eye on a potential market with a specific sector or thematic focus, recent trends and expected short and long-term developments.
Tool: Market information from CSIL database, desk research, secondary data analysis, selected interviews, econometric models, machine learning methodologies (geolocation, sentiment analysis).
Expected results: Key information for the decision about the ‘go or stop’ in a new business field or country, fact findings for production, investment and sales planning.
Some recent experiences: Potential market for luxury kitchens in selected countries; Retail software for kitchen furniture planning; The world market for professional appliances; Prospect for embedded lighting in furniture.

ENTRY STRATEGIES
Issues we address: Supporting your strategy design in approaching a new market (which channels, investments, job recruiting, flagship products, purchasing process).
Tool: In-depth industry interviews, desk research, statistical data analysis.
Expected results: Recommendations on market entry strategy with action plan.
Some recent experiences: Appliances market in Saudi Arabia; The Italian market for professional fire alarms; potential market for robotics in the kitchen high-end market; Partner research in the Italian design-oriented market; The thermoplastic market in Europe, China and the USA.

COMPETITION AND POSITIONING ANALYSIS
Issues we address: We track activities and initiatives of existing and emerging competitors, evaluating their impact and allowing the client to respond quickly and change its strategy. Company data are analysed within the sector’s scenario in order to understand its positioning, possible future developments and market trends.
Tool: This is usually performed in three steps: company check-up, market environment, competitor analysis. Key tools are in-depth interviews to industries representatives, desk research, secondary, data analysis and statistics.
Expected results: Database for the client’s competitive intelligence, industry benchmarking, brand portfolio and SWOT analysis.
Some recent experiences: Company profiles of selected kitchen components manufacturers in Europe; potential market for napkins in Europe, China, and North America; Candle markets in Europe, USA, and China; Profiling of market leaders in the US market for thermoplastics.
ANALYSIS OF PRODUCT TRENDS, PRODUCT TESTS
Issues we address: Assessing the competitive advantage of products and selling strategy.
Tools: Interviews with trade representatives, key testimonials and trend setters, mystery shopping.
Expected results: distribution channel assessment, testing new products in terms of prices and product features.
Some recent experiences: Potential market for new type of glass, flame retardant fibres, ecological and standard thermoplastics, ovens and steamers, metal drawers and sliding elements, and flat glass for ovens.

PRODUCT DESIGN STRATEGY
Issues we address: Identifying the company guidelines for the future communication/product/service scenario, analysing design opportunities in terms of new products. Innovation concept design.
Tools: tailored made design laboratories, workshops and seminars involving R&D, Production, Marketing and Design managers.
Expected results: design strategy, product/communication strategy design research, design workshop training.
Past experiences: Italy, Bangladesh and Thailand. CSIL Experts have also given training, workshops and consulting in Germany, Italy, Mexico, USA.

TRADE AND CUSTOMER SATISFACTION
Issues we address: What is the degree of satisfaction of your customers or other relevant actors? And, more importantly, what are the ingredients affecting the most their implicit or explicit satisfaction?
Tools: Survey data coupled with advanced methods and tools for processing survey data: Bayesian networks, CUB models for explaining feeling and uncertainty, Rasch models, decision trees. CAWI (Computer Assisted Web Interviewing)
Some recent experiences: Trade satisfaction in the Italian kitchen furniture market.

LOCAL DEVELOPMENT STRATEGIES AND CLUSTERING POLICIES
Issues we address: Development planning of local productive systems and group of companies for development agencies, consortia, and institutions.
Tools: Supply and Demand Analysis, potential and actual market, strategic analysis of competition, SWOT analysis, technical assistance for clustering policies, stakeholders mapping.
Expected results: Analysing development policies (legal framework and projects) as well as production factors, comparative analysis of local productive systems.
Some recent experiences: Roadmap for competitive development of Ukrainian furniture manufacturing industry; summer school on cost-benefit analysis of investment projects; evaluation of EU Cohesion Policy.
